

Rental Equipment Price List

704.377.3492 www.biggscamera.com

Thank you for choosing BIGGS CAMERA IMAGE CENTER for your rental equipment needs. In order to meet the needs of all our clients we have found it necessary to implement a certain set of guidelines. Your adherence to these few rules will help us to better be able to serve your needs.

A deposit or certificate of insurance is required for all rental equipment. The deposit is equal to the replacement value of the equipment (list price). The deposit may be secured by a check (if NC resident and NC Bank) or by credit card (NOT Debit Card). If you choose to use a credit card to secure a deposit, an "Authorization Hold" will be placed on your card for the amount of the deposit, that amount will remain on your card UNTIL YOUR bank releases the hold. Biggs Camera does not remove the hold even after you return the equipment. A certificate of insurance may be used in lieu of a deposit providing that the certificate shows Biggs Camera listed as additionally insured and as the certificate holder; the certificate should list a value amount equal to or greater than the value of the rental; the certificate should contain a statement that describes the coverage to include professional photographic equipment rented from and carried off premises by the renter; and the certificate has to be received by Biggs Camera prior to the time of the rental. All rentals that are taken out of the continental US must have a certificate of insurance on file.

Rentals are based on a 24 hour time period. Additional charges will be incurred on rentals not returned on time.

A weekly rental rate is a discount for prepayment and is based on a rate of 3 times the day rate. A late rental return will be charged for every day that it is late; no week rate discount will be given on rentals that have not been prepaid. Daily rentals that are kept for a week, will also be charged for each day the rental is late.

A weekend discount is available for rentals picked up after 4pm on Friday and returned at 12PM Monday; this discount is charged as a 1&1/2 days instead of a 2 day rental. However, if the rental is not returned by 12PM the rental is then considered 2 day rental and will be charged the extra 1/2 day at the time of the return.

It is the responsibility of the photographer or his agent to check the rental equipment before leaving Biggs Camera. If you need an instruction manual or tips on how certain equipment operates ask before leaving Biggs Camera. If the photographer is unable to use the equipment because they did not know how it operates, no rental credit will be issued. If a piece of equipment fails to operate properly while being rented, if possible the photographer should notify Biggs Camera of the failure at that time; not upon the return of the rental. Some issues can be corrected over the phone.

Credits will not be issued if you had an equipment failure and Biggs Camera was not given the opportunity to correct the problem; if you did not know how the equipment functions or you just did not need the equipment.

Equipment is checked before it leaves Biggs Camera, any damages that occur after leaving Biggs Camera, including during shipping, are the responsibility of the renter. Charges for damages include the cost of repair or replacement as well as the lost revenue on rental of the equipment while it is out repair.

Thank You
Biggs Camera
